

## CALDAX

### CALCIUM GREASE

#### Description

Grease Calcium are premium quality Calcium soap thickened greases produced from low volatile high viscosity index mineral oils, superior fats/fatty acids, and a synergistic blend of additives and performance boosters.

#### Benefits

- Grease Calcium are water resistant greases with a tackifier. It meets BIS: 506 – 1993 specification for automotive grease.
- Exhibit excellent film forming characteristics and are therefore also effective as protective greases for chassis and other applications.
- Are recommended for chassis lubrication of automobiles including commercial vehicles, tractors and other heavy duty equipment.

#### Typical Properties

	Calcium 1	Calcium 2	Calcium 3
Appearance	Brown Coloured Translucent	Brown Coloured Translucent	Brown Coloured Translucent
NLGI No	1	2	3
Structure	Smooth	Smooth	Smooth
Soap Type	Calcium	Calcium	Calcium
Worked penetration, @25°C, (60/60)	310-340	265-295	220-250
Base Oil viscosity, cSt @ 100°C	10-11	10-11	10-11
Drop Point°C, Min	95	95	95
Rust Test	Passes	Passes	Passes
Conforms to	Grade 1	Grade 2	Grade 3
Operating temperature, °C	-20/70	-20/70	-20/70
